Part Ⅱ Reading Comprehension (40%)

Passage 1

Directions: Read the following passage. After reading it, you should give brief answers to the 5 questions (No.11 to No.15) that follow. The answers (in no more than 3 words) should be written after the corresponding numbers on the Answer Sheet.

Does stress, anger, or sadness drive you to eat? Do you turn to food for comfort, or when you're bored? Many people do. If you often eat for emotional reasons instead of being physically hungry, that can be a problem.

Obeying the urge to eat more than you need is certain to gain weight. It's an even bigger problem if you already have health conditions like high blood pressure.

You can get back in control of your emotional eating. The surprising part is that it's not really about food at all. The solution to emotional eating is less about eating than it is about emotions. You can start with a simple step. "Make a list of what is stressing you, and make a plan to take control of the situation," New York psychologist Patricia Farrell says. If you can change the situation, go for it. If the problem is out of your control, you can manage the way you think about it. If you can notice your stress at the moment, you can choose how you respond, rather than react the way you have done in the past. It helps to add a delay between the urge to eat and actual eating. That gives you time to check how you're feeling and why you want to eat.

When you get the urge to eat a cookie out of sadness or boredom, remember that you have the choice to wait it out. "Tell yourself to have it later," Farrell says. Even if it doesn't, successfully delaying the snack helps you feel more in control.

In addition, consider talking with a doctor so you can better understand what's going on with you and find the best way to handle your emotional eating.

11. When eating can be a problem?

A person often eats for emotional reasons rather than _____.

12. What problem will a person certainly have when he obeys the urge to eat more than he needs?

You can _____ you think about it.

15. How can you find the best way to handle your emotional eating?

By talking with _____.

Passage 2

Directions: Read the following passage. After reading it, you should give brief answers to the 5 questions (No.16 to No.20) that follow. The answers (in no more than 3 words) should be written after the corresponding numbers on the Answer Sheet.

World Sleep Day, observed on March 21, was created to bring attention to sleep problems worldwide. Sleep is a natural part of human life, but many people in the modern world ignore its importance. As a result, sleep problems are increasingly common.

In 2020,.scientists at the University of Athens in Greece conducted a survey of over 35,000 people in 10 countries around the world. The survey found that many people suffered from the effects of poor sleep quality, some examples of which were being unable to fall asleep and waking up in the middle of the night. The main factors causing these problems were pressure from school or work and a fast pace of life. The survey's findings were particularly troubling because large numbers of people were found to have difficulty sleeping at night. The short-term effects of this are tiredness and having trouble concentrating. If this lasts for a long time, the risk of putting on weight and having a heart attack may increase.

There are many things you can do to improve the quality of your sleep. First, you should have regular sleep habits. Try to go to bed and wake up around the same time each day. Furthermore, at night, you should also avoid the things that contain caffeine, such as chocolate, coffee and tea, as caffeine may keep you from sleeping.

Getting a good night's sleep is important to everyone. By following the advice above, you can rest better at night and work better during the day.

16. Why did people create World Sleep Day?

Because they wanted to bring attention to _____ worldwide.

17. What did the survey find?

18. When may people have sleep problems?

When people are under _____ from school or work, they may have sleep problems.

19. What problem may people easily have if they have sleep problems for a long time?

They may easily gain weight and have a _____.

20. If you want to improve your sleep quality, what should you do?

You should avoid the things which _____ caffeine.

51. Reading doesn't just mean recognizing each word on the page; it means taking in the information, digesting(消化) it and incorporating(吸收) it into oneself just as one digests a sandwich and makes it a part of himself. The goal is to bring the information back to life, not just to treat it as dead facts on paper. Reading and writing cannot be completely separated from each other; in fact, the aim of reading is to express the information you have got from the text. People who can't express an idea after reading a text are just as ineffective as those who haven't read it at all.
