Part Ⅱ Reading Comprehension (40%)

Passage 1

Directions: Read the following passage. After reading it, you should give brief answers to the 5 questions (No.11 to No.15) that follow. The answers (in no more than 3 words) should be written after the corresponding numbers on the Answer Sheet.

What is your favorite color? Do you like yellow or red? If you do, you must be an optimist(乐观主义者),a leader, an active person who enjoys life, people and excitement. Do you prefer grey and blue? Then you are probably quiet, shy, and you would rather follow than lead. You tend to be a pessimist(悲观主义者).At least, this is what psychologists tell us, and they should know, because they have been seriously studying the meaning of color preference, as well as the effect that colors have on human beings. They tell us, among other facts, that we do not choose our favorite color as we grow up—we are born with our preference. If you happen to love brown, you did so as soon as you opened your eyes, or at least as soon as you could see clearly.

Colors do influence our moods—there is no doubt about it. A yellow room makes most people feel more cheerful and more relaxed than a dark green one. On the other hand, black is depressing. A black bridge over the Thames River, near London, used to be the scene of more suicides than any other bridge in the area—until it was repainted green. The number of suicide attempts immediately fell sharply; perhaps it would have fallen even more if the bridge had been done in pink or baby blue.

Light and bright colors make people not only happier but more active. It is an established fact that factory workers work better, harder, and have fewer accidents when their machines are painted orange rather than black or grey.

11. If one enjoys life, which color is he or she sure to prefer?

He or she is sure to prefer _____.

12. What does the sentence "you would rather follow than lead" in Paragraph 1 mean?

It means that you would be a member rather than _____.

13. What do psychologists tell us?

They tell us that we are born with _____ for colors.

14. Why did those who committed suicide prefer the bridge over the Thames River to others?

Because its _____ was depressing.

15. How can factory directors make their workers work more efficiently?

By painting the machines in _____ colors.

Passage 2

Directions: Read the following passage. After reading it, you should give brief answers to the 5 questions (No.16 to No.20) that follow. The answers (in no more than 3 words) should be written after the corresponding numbers on the Answer Sheet.

Who talks more, women or men? The seemingly contradictory evidence is reconciled(调和) by the difference what I call public and private speaking. More men feel comfortable doing "public speaking", while more women feel comfortable doing "private" speaking. Another way of capturing these differences is by using the terms report-talk and rapport-talk(闲谈).

For most women, the language of conversation is primarily a language of rapport: a way of establishing connections and negotiating relationships. Emphasis is placed on displaying similarities and matching experiences. From childhood, girls criticize peers who try to stand out or appear better than others. People feel their closest connections at home, or in settings where they feel at home during private speaking. But even the most public situations can be approached like private speaking.

For most men, the talk is primarily a means to preserve independence and negotiate and maintain

status in a hierarchical(等级制的) social order. This is done by exhibiting knowledge and skill, and by holding center stage through storytelling, joking, or sharing information. From childhood, men learn to use talking as a way to get and keep attention. So they are more comfortable speaking in larger groups made up most of people they know less well, in the broadest sense, "public speaking". But even the most private situations can be approached like public speaking, more like giving a report than establishing rapport.

16. According to the author, who feels comfortable doing "private speaking"?

_____.

17. What is the other term for "public speaking"?

_____.

18. What role does the language of conversation play for women?

_____.

19. What role does a talk play for men?

_____.

20. How do men approach the most private situations?

_____.

Could you look into the eyes of children and tell them they will have nothing to eat tonight?

We can't, either.

That's why we have set up the Mississippi Food Network(MFN), a non-profit organization. As a member of Feeding America, we make sure that children, families and seniors in our service area have food. MFN has been feeding Mississippians since 1984.

At MFN, we partner with 430 food pantries(食品供应站), emergency shelters, and soup kitchens

in our community to provide the food needed for our hungry neighbors. Because of friends like you, we distribute more than 18 million pounds of food annually to help feed hungry people in our service area.

What a great way to help neighbors in need and make your blessing really count!

You can help make a difference in the fight against hunger. Send your gift today, every $ 10 you donate helps provide food for 70 meals.

If you have any questions, please use our contact form, call 600-700-8000, or email cguess@msfoodnet.org.
